

MOBILE ACCESS RAMPS

WM System's mobile access ramps provide a flexible and temporary solution for overcoming elevation changes and ensuring quick and safe accessibility. Made of anodized aluminum with a non-slip surface, these ramps operate by resting in place and do not require permanent installation.

WM MOBILE BRIDGE ACCESS

DESCRIPTION:

The mobile bridge access ramp is the ideal, transportable solution for climbing up to 4 steps in temporary situations. Designed to be flexible and mobile, it allows customization of width and length (up to 405 cm) to create a tailor-made product.

FEATURES

Capacity:
400kg

Handling:
In support

Custom dimensions:
Width 80 to 120 cm,
Length 230 to 405 cm

ADVANTAGES:

The foldable design allows the ramp to be placed near the steps only when needed and easily stored in the garage, crawl space or storage room, ensuring a clear entrance at all times. Shipped ready to use, it requires no assembly and is also suitable for entrances with similar height differences.

WM MOBILE BRIDGE ACCESS

APPLICATIONS:

Ideal for homes, hotels, museums, stores, offices, stations and vehicles.

OPTIONAL:

L-displacement

Handrail

Step support

Hole for optional fastening

CUSTOMISATION MOBILE RAMPS

WM System offers a wide range of customisable options to meet every need, for mobile access ramps.

Below are the common customisations available:

Mobile bridge access ramp

L Dislocation

This L-shaped configuration offers an ideal solution for spaces that require a change of direction, providing greater convenience and safety.

Handrail

Add a handrail for additional support and safety when using the ramp, available in different finishes to match the design.

Engraving And Colour Customisation

Add a unique touch to your ramp with a personalised engraving, perfect for logos, text or decorative motifs and even add a customised colouring.
