

MOBILE ACCESS RAMPS

WM System's mobile access ramps provide a flexible and temporary solution for overcoming elevation changes and ensuring quick and safe accessibility. Made of anodized aluminum with a non-slip surface, these ramps operate by resting in place and do not require permanent installation.

WM ACCESS TELESCOPIC

DESCRIPTION:

Pair of telescopic access ramps designed for convenient and intuitive use. Their compact, modular design allows them to safely and reliably overcome differences in height.

FEATURES

Capacity:
300 kg per pair

Handling:
In support

Custom dimensions:
Width: 18.5 cm
Lengths: 150, 200, 225, 250 or 300 cm

ADVANTAGES:

Safety:

Equipped with anti-fall edges, non-slip aluminum perforated top and carrying handle

Ease of Use:

The adjustable support system and folding structure ensure secure connection, while the side locking hook allows easy closure

Compactness:

They require little space when not in use

WM ACCESS TELESCOPIC
