CUSTOMISATION MOBILE RAMPS

WM System offers a wide range of customisable options to meet every need, for mobile access ramps.

Below are the common customisations available:

Step access ramp

Feet on the ground

They provide increased ramp stability on uneven surfaces, ensuring safety and preventing unwanted movement during use. Easy to install, they improve overall stability.

Engraving

Allows a customised inscription to be added to the ramp, providing a unique and professional touch. Ideal for product identification or personalisation.

Colouring

It makes the ramp dark and opaque, improving aesthetics and reducing glare. Ideal for a discreet and professional look.
