MOBILE WORKSHOP
Operational and efficient wherever you are

The Mobile Workshop

WM System's Mobile Workshop transforms your vehicle into a fully equipped laboratory, allowing you to intervene quickly and flexibly right in the field.

Loading ramps   **WM Flexy**   **WM Mobilix**

THE COMPLETE SOLUTION FOR EVERY VAN

With our integrated systems, consisting of loading ramps, Flexy and Mobilix, you can turn any van into a fully equipped mobile workshop, ready for any type of work or service.

WHAT IS THE MOBILE WORKSHOP?

Our Mobile Workshop is an integrated system that turns any vehicle into a fully equipped workshop. The S-car concept of our solutions allows you to easily load, unload and organize equipment on your vehicle.

SET IT UP YOURSELF:

Choose and customize the right combination for your needs.

LOADING RAMPS:

Choose from our **11 models** of loading ramps the one that suits you best. Loading and unloading have never been easier!

FLEXY

This **fully customizable and modular cart** is essential for optimizing space and organization of your equipment.

MOBILIX

An advanced **mobile platform** designed to optimize transportation processes and equipment deployment in the field.

CONFIGURE YOUR VAN

WE HELP YOU CHOOSE THE BEST SOLUTION FOR YOU

Customize your Mobile Workshop to suit your needs. With our modular system, **you can choose sizes, layouts and accessories** to transform your vehicle into an optimized workspace. Organize your equipment efficiently to ensure fast and flexible interventions.
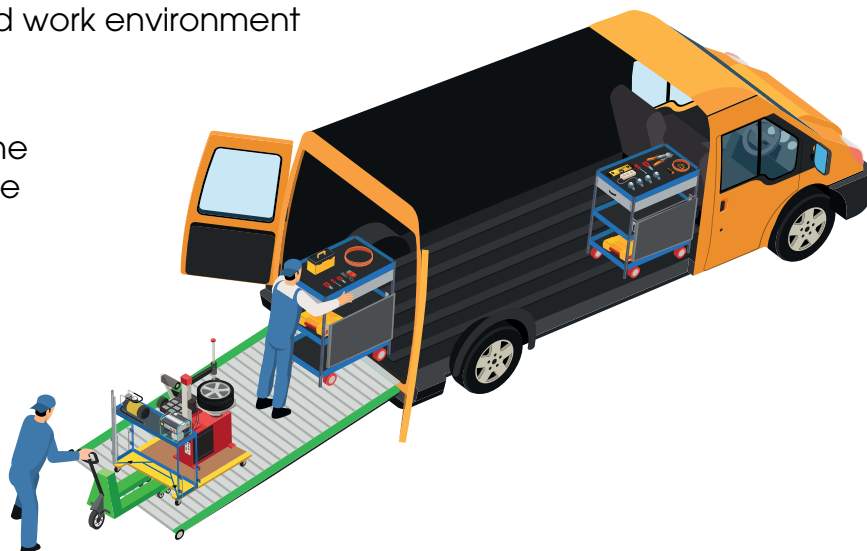

FULL SUPPORT:
